Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is "high". If you could purchase a ... Continue reading ->

How can Barbados improve its energy security & resilience?

The Ministry's objective is to improve Barbados' energy security and resilience,as well as reduce its dependence on imported fossil fuels,resulting in the retention of foreign exchange and the improvement of the country's economic competitiveness. Key activities include: Implementing Public Education and Public Awareness activities.
