To support those goals, the OCP designed a server rack specifically for 48V DC power distribution. The OCP Open Rack Version 3 (ORv3) can provide data centers with the opportunity to integrate 48V DC ...

Mpc22163-130 - Two-Phase Intelli-Module with Quiet Switchertm TechnologyMpc22166-130 - Two-Phase Intelli-Module with Quiet Switchertm TechnologyMpc22167 - 130A, Two-Phase, Intelli-Moduletm with Quiet Switchertm TechnologyThe MPC22166 is a non-isolated, step-down power module with 130A of continuous peak output current. This module integrates driver MOSFETs and an inductor in a compact package to save layout space and achieve a higher power density. It is scalable for many modules in parallel, up to 2kW+ of power. The 4mm maximum height makes it suitable for many ap...See more on monolithicpower Server Racks Online48V DC Rack Power Distribution Units (-48VDC PDU)Using the right remote DC power management solution, the network operations center can quickly restart locked-up remote network servers to ensure that the network is fully operational around the ...

Many customers work with a Vertiv reseller partner to buy Vertiv products for their IT applications. Partners have extensive training and experience, and are ...

Transitioning to 48V is about more than voltage--it's about reliability. Power shelves in server racks use busbars to distribute electricity, and the connection points between busbars, cables, and circuit ...

Vicor has established a portfolio of products enabling AC or HV distribution and Factorized Power Solutions for 48V direct to the load conversion. 48V ...

Transitioning to 48V is about more than voltage--it's about reliability. Power shelves in server racks use busbars to distribute electricity, and the connection points between busbars, cables, ...

In order to meet the industry's new power requirements, MPS has developed a new power architecture, using a 48V distribution voltage that is capable of a 16x reduction in power ...

Many customers work with a Vertiv reseller partner to buy Vertiv products for their IT applications. Partners have extensive training and experience, and are uniquely positioned to specify, sell ...

High efficiency and high power density 48 V power distribution solutions for hyperscale datacenters and AI servers. Driven by AI and the associated high power requirements, datacenters are transitioning ...

Using the right remote DC power management solution, the network operations center can quickly restart locked-up remote network servers to ensure that the network is fully operational around ...
