The sealed SmartCabinet ID solution protects the enclosed IT equipment against dirt, dust and fluctuating temperatures typical of warehouses, factory floors and other common Edge ...

The robust IP54 rated cabinet provides environmental protection from harsh applications where dust and humidity could severely impact system performance and equipment life-span.

In response to the rapid expansion of edge computing, which has pushed critical IT equipment and data outside the conventional data ...

The sealed SmartCabinet ID solution protects the enclosed IT equipment against dirt, dust, and fluctuating temperatures typical of warehouses, factory floors, and other common edge locations, and ...

Engineers design these systems to support the integration of MEC nodes directly within telecom cabinets. This approach leverages modular rack-mount power frames and ...

Explore what Edge computing is and how it (and the right IT enclosure system) can handle scalability, security, protection, disruptors, and ...

Explore what Edge computing is and how it (and the right IT enclosure system) can handle scalability, security, protection, disruptors, and standalone solutions.

The integrated cabinet can be used immediately after it is powered on and goes online in 15 minutes. With small footprint, high integration, and low equipment room requirements, the ...

The sealed SmartCabinet ID solution protects the enclosed IT equipment against dirt, dust and fluctuating temperatures typical of ...

In response to the rapid expansion of edge computing, which has pushed critical IT equipment and data outside the conventional data center into environments challenged by harsh ...
