Integrated Substations: Pre-installed box-type substations featuring compact structure, quick installation, energy-saving, and environmental protection, suitable for urban power grids, ...

Pre-engineered outdoor cabinets, power modules and thermal management for telecom sites, data centers, and FTTH deployments. Built for fast integration, harsh environments, and scalable delivery.

The outdoor photovoltaic energy cabinet can provide reliable housing for network servers, edge computers, professional equipment, monitoring systems, photovoltaic, and battery systems.

Explore AZE's premium NEMA-rated and weatherproof enclosures designed for telecom, industrial electrical, and energy storage applications. Built to withstand harsh environments and extreme ...

Pre-engineered outdoor cabinets, power modules and thermal management for telecom sites, data centers, and FTTH deployments. Built for fast integration, harsh environments, and ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, ...
