Ghana has installed a huge solar energy array on the Bui reservoir, cutting land use and boosting renewable energy output. The project can also protect aquatic life from overheating. Ghana ...

Ghana has launched West Africa's largest floating solar project, marking a significant step towards increasing its renewable energy capacity.

For vulnerable and often isolated communities in West Africa, agrivoltaics might just be the pathway to expanding energy access, enhancing food security, and promoting ...

Senegal has begun commercial operations at a new solar energy facility that combines photovoltaic power with lithium-ion battery storage, the first of its kind in West Africa, as the country ...

West Africa experiences high levels of sunshine, presenting the region with a unique opportunity for harnessing solar energy. However, the region hasn't yet been able to take advantage ...

The 5 MW floating solar farm, now officially the largest in West Africa, is a marvel of innovation. Installed on the surface of the Black Volta River, the project demonstrates how ...

Senegal has begun commercial operations at a new solar energy facility that combines photovoltaic power with lithium-ion battery storage, the first ...

Senegal has begun commercial operations at a new solar energy facility that combines photovoltaic power with lithium-ion battery storage, the first of its kind in West Africa, ...

West Africa experiences high levels of sunshine, presenting the region with a unique opportunity for harnessing solar energy. However, the region hasn't yet been able to ...

For vulnerable and often isolated communities in West Africa, agrivoltaics might just be the pathway to expanding energy access, enhancing food security, and promoting climate resilience...
